

Self Serve Popcorn Machine

Tom Chandley are proud to present the new and innovative Self Serve Popcorn Machine. This new way of allowing customers to serve themselves adds tremendous theatre and customer interaction whilst ensuring increased profitability with low overheads.

Perfect for venues such as supermarkets, cinemas, theatres, convenience stores and petrol stations the self serve vends warm pre-popped popcorn (available to purchase in bulk).

Simply help yourself to one of the tubs in the built in tub holder, open the door and place the empty tub in the dispensing area, then press the red button and watch the tub fill with fantastic fresh warm popcorn.

The machine features sensors which prevent popcorn being dispensed unless a tub is in place. Using the built in warming system the popcorn remains fresh for 48 hours. Loading of fresh popcorn is done via the top loading flap, the rear swing door can be accessed for cleaning.

- Capacity: 2.5 sleeves of pre-popped popcorn
- Top loading and rear access for cleaning
- Forced air warming system
- Integral halogen lighting
- Tub Sensors
- Built in Tub dispensing system
- 645mm wide x 570mm deep x 1500mm high
- 200 Watt - 13amp single phase supply
- Optional Castors
- Optional Side shelving
